Welcome to the Microsoft AI Cloud Partner Program

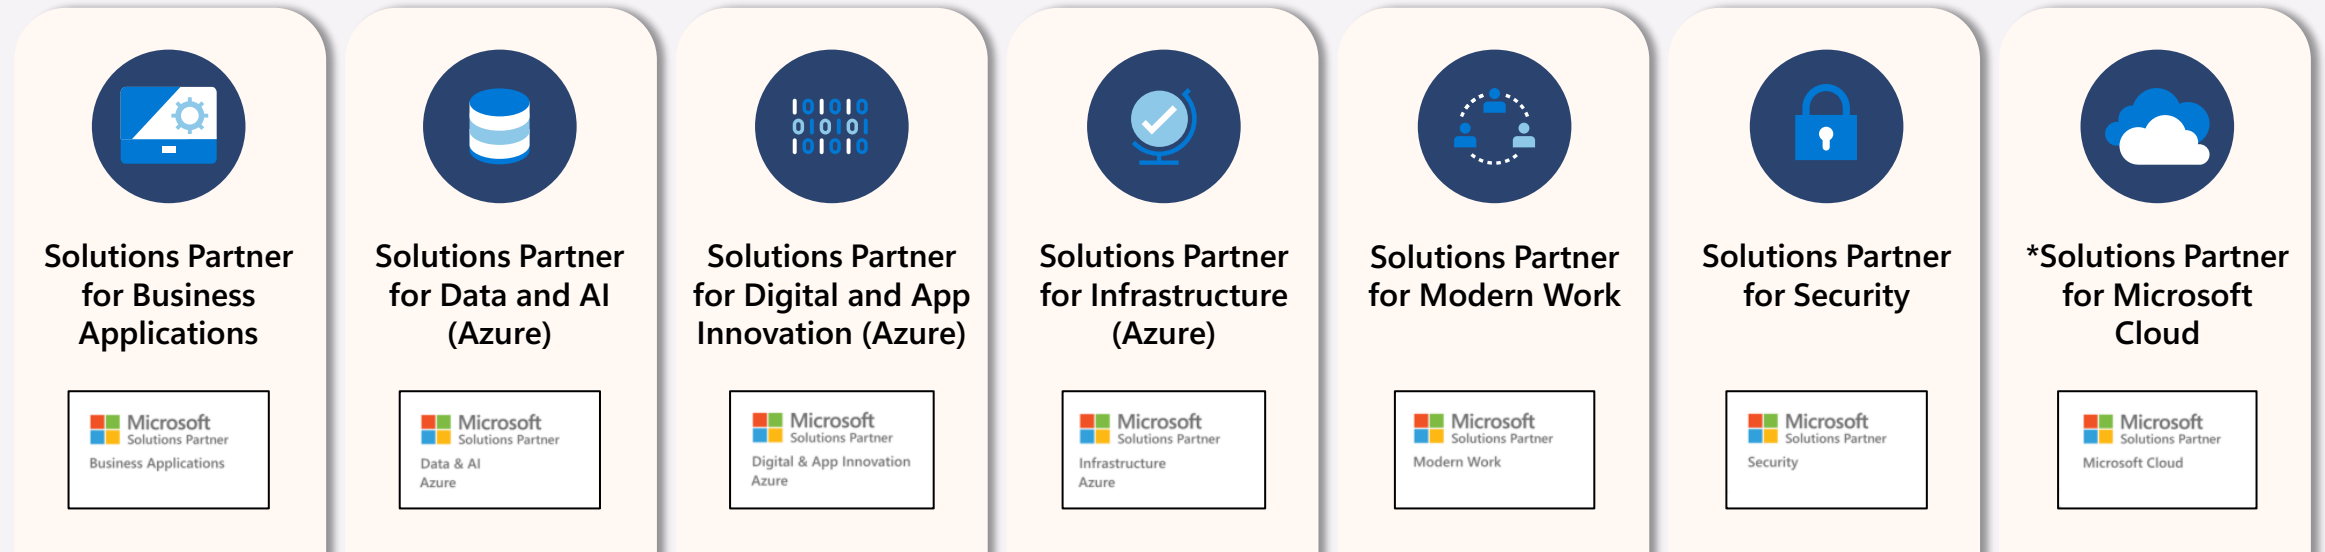

The world and how we work is rapidly changing. The opportunities for Microsoft partners—whether you build and sell services, software solutions, or devices—are significant. The capabilities required by our customers are evolving, and our partner programs are changing to meet that demand.

The Microsoft AI Cloud Partner Program is designed to help your organization invest in new ways of growth so you can deliver greater customer value.

Learn more: [Microsoft AI Cloud Partner Program](#)

Distinguish yourself with Solutions Partner Designations

Designations aligned to the Microsoft solution areas recognize your broad technical capabilities and demonstrated success delivering technology solutions.

Benefits aligned to your Solutions Partner designation include product benefits, go-to-market services, co-sell eligibility, skilling and sales skilling resources, and customer-facing badges to help you market your expertise.

Specializations further validate deep technical expertise after you attain a Solutions Partner designation and set you apart from the competition.

*Partners who attain all six Solutions Partner designations receive a Microsoft Cloud badge, recognizing your capabilities across the Microsoft Cloud.

How to attain a Solutions Partner Designation

The [partner capability score](#) provides flexibility to demonstrate knowledge, skills, and experience across subcategories of performance, skilling, and customer success.

A minimum of **70** points must be earned, with points in each category.

There are **100** points possible in total across categories.

Performance

This category is measured by net customer adds.

Skilling

This category verifies and demonstrates your dedication to skilling and training by intermediate and advanced certifications.

Customer success

This category is measured by usage growth and the number of solution deployments.

Microsoft Skilling initiatives and events support efforts in this subcategory

Microsoft Certification Renewal

Keep your certification current simply by passing the online renewal assessment on Microsoft Learn.

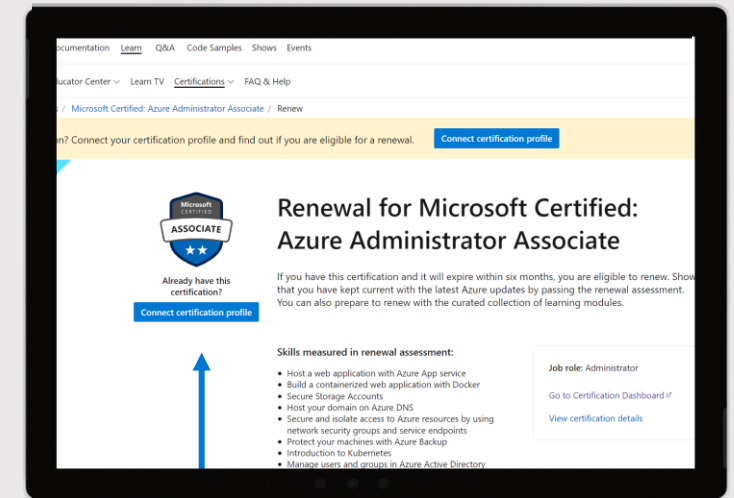

Why?

- Maintain your Microsoft Certification credentials and keep your skills current at no cost.
- Validate your skills with the latest technology with updates that may affect your job role.
- Renewal content covers technology updates and will demonstrate your up-to-date expertise.
- Attempt the no-cost assessment as often as needed without having to pass any exams. The process doesn't involve taking an exam with Pearson VUE.
- Renew after renewal window opens, approx. six months prior to the certification expiration date.

Next steps?

1. Check the [Certification Dashboard](#) for certifications available to renew
2. Watch this video: [Renew your Microsoft Certification](#) for 3 easy steps to renewal
3. [Visit here](#) for quick links to renewable exams:
 - Visit [Microsoft Learn](#) to connect your learn profile with your certification profile.
 - [Prepare for renewal assessment](#) with self-paced learning modules available on Microsoft Learn.
 - Pass your 100% sponsored assessment **before** your certification expires.

Good News! When you pass the online assessment, your certification expiration date will extend for one additional year from the current expiration date.

Certification Renewal Process

Benefits of renewing

Certification renewal is at no cost.

There's no cost to renew your certification, just make sure you pass the online assessment before your certification expires. Fundamentals certifications do not expire.

Six-month renewal window.

You can take the renewal assessment any time during your six-month eligibility window, via Microsoft Learn. Once you pass, your certification will be extended one year from the expiration date.

Assessments are short and not proctored.

Assessments focus on recent technological and industry updates, so they're shorter than the original exam(s) and are an open book. You can take the assessment as many times as you need, as long as you pass before your certification expires.
